

Economic Opportunities – Manufacturing

From large international manufacturers to small family owned suppliers, Lincoln County is proud of its rich industrial heritage. While Lincoln County is known for its presence of heavy manufacturing, the eastern area of the county has found its own niche in the industrial arena.

From entrepreneurial startups to family owned manufacturing operations, eastern Lincoln County has a diverse industrial base. With numerous industrial parks throughout the area, eastern Lincoln County is conducive to small to medium size companies with light manufacturing operations. Its close proximity to Charlotte and the Charlotte Douglas International Airport make it a perfect location for industry. The expansion of North Carolina Highway 16 only adds to eastern Lincoln County's appeal.

Denver and eastern Lincoln County have become a hub of activity for the motorsports industry. With its close proximity to the heart of racing, Denver has established itself as the perfect place for motorsports suppliers. The industry has found Denver to be a high quality of place with comparatively low cost. Eastern Lincoln County provides motorsports manufacturers and suppliers with great access to Mooresville, Concord and Charlotte without being in the midst of racing saturation.

From motorsports to manufacturing, eastern Lincoln County has established itself as the perfect location for light industry. The area's pro-business climate coupled with its tremendous access make the west side of Lake Norman the perfect business choice.
